PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience building scalable, user-focused web applications and platforms. Skilled in **React.js, Next.js, TypeScript, JavaScript, GraphQL, SCSS and GitHub Actions**, with experience in **frontend architecture, design systems, accessibility, performance optimization, security, and production support** for platforms serving **5M+ monthly users globally**.

EXPERIENCE

- McKinsey & Company** Gurugram, India
Software Engineer (Full-time) June 2022 – Present
 - High-Traffic Web Platforms:** Worked on **client-facing web applications used by 5M+ monthly users globally**, building and maintaining frontend features with **React.js, Next.js, TypeScript, JavaScript, GraphQL, SCSS, Sitecore, JAMstack, and GitHub Actions**.
 - Frontend Modernization:** Contributed to **frontend modernization and template migration** work by improving existing **React/Next.js** implementations, cleaning up legacy patterns, and making the codebase easier to maintain, reuse, and extend.
 - Reusable UI Components:** Built **reusable design-system components** used across multiple engineering teams, helping reduce repeated UI development effort by **40%** and improving consistency across pages, templates, and user journeys.
 - Accessibility & Navigation:** Improved key user experiences, including frontend navigation, with a focus on **WCAG AA-aligned accessibility**, semantic HTML, responsive layouts, keyboard-friendly interactions, and better overall usability.
 - Component-Based Feature Development:** Built flexible, reusable frontend modules integrated with **Sitecore and GraphQL**, enabling content teams to manage dynamic page experiences while reducing the need for repeated engineering changes.
 - UI Interactions & Performance:** Created polished UI interactions and animation flows using **GSAP and SCSS**, while also supporting performance improvements through lazy loading, bundle optimization, and efficient rendering strategies, contributing to an **18% improvement in engagement metrics**.
 - Security & Production Support:** Supported platform stability and security by implementing **Content Security Policy**, resolving critical **npm dependency vulnerabilities**, debugging production issues, and helping deliver releases without production regressions.
 - AI-Assisted Development:** Leveraged **GitHub Copilot, Cursor, and AI-assisted workflows** to accelerate feature development, refactoring, debugging, and unit test creation, while ensuring code quality through reviews, CI/CD checks, and 95%+ test coverage across supported frontend modules.
- IDEMIA** Noida, India
Software Engineer (Full-time) Jan 2018 – Sept 2019
 - Embedded Firmware Development:** Developed **production-grade firmware for access-control systems** using **C++, Linux, and embedded systems**, supporting reliable device authentication and access-control workflows.
 - Enterprise Security Interfaces:** Built **secure browser-based interfaces** using **JavaScript and HTML** for enterprise security platforms, while debugging device-level issues and improving overall system reliability.

EDUCATION

- Netaji Subhash University of Technology (NSUT)** Delhi, India
Master's of Technology - Machine Intelligence and Data Analytics Sept 2020 - June 2022
- Chitkara University** Punjab, India
Bachelor's of Technology - Computer Science Engineering August 2014 - June 2018

SKILLS SUMMARY

- Languages:** JavaScript, TypeScript, HTML5, CSS3, SCSS, C++, Python, SQL
- Frontend:** React.js, Next.js, Redux, Responsive UI, Design Systems, Accessibility (WCAG), JAMstack
- Backend & APIs:** GraphQL, REST APIs, Sitecore CMS, API Integration
- Testing & Quality:** Jest, React Testing Library, Unit Testing, Lighthouse, Chrome DevTools, Code Reviews
- DevOps & Tools:** Git, GitHub Actions, CI/CD, Docker, Storybook
- AI-Assisted Development:** GitHub Copilot, Cursor, AI-assisted debugging, refactoring, and test creation
- Core Skills:** Frontend Architecture, Performance Optimization, Code Splitting, Caching, System Design, Agile/Scrum

CERTIFICATIONS

- AWS Certified AI Practitioner**
- Microsoft Azure Fundamentals (AZ-900)**
